British Journal of Educational Technology

INDEX

Volume 32: January–October 2001

This index is a combined list of authors (shown in bold), titles (shown in italic) and subjects of all articles and Colloquium contributions contained in Volume 32. Interspersed with these are the first-named authors/editors (bold), titles (italic) and main subjects of books reviewed (excluding those listed as 'Also received').

Entries cite page numbers only: the pagination of each issue was as follows:

Number 1 (January)	1–128
Number 2 (April)	129–256
Number 3 (July)	257–384
Number 4 (October)	385–506
Number 5 (November)	507–634

3D graphs 623–6

Aalykke, Soren 373–7
Abbott, Chris (review) 331–42, 627
access technology 360–1
Action learning and action research (review) 115–16
Action Learning Project 115–16
ADHD *see* Attention Deficit Hyperactivity Disorder
Ager, Alastair 373–7
Agosta, John 171–81
ANDES 173
animation stories 109–12
Aspinall, Ann 365–72
assessment 162, 199
  of assignments on CD 167–8
  computer-aided 203–4
  module 199–200
  self-assessment 199, 455, 492
  see also portfolio
assignments, use of multimedia 161–9
Astion, Michael 595–605
Attention Deficit Hyperactive Disorder (ADHD) 607–9
  and computer games performance 609–17
authoring 267
  multimedia 267–74

Bassey, Michael (review) 627–8
Bayesian networks 172–80
Bayesian student modeling and the problem of parameter specification 171–81
BBC, and Open University Business School 92, 97, 100–2
Bennett, Roger 471–82
Body movements of boys with Attention Deficit Hyperactivity Disorder during computer video game play 607–18
Bourner, Tom (review) 249–50
braille notepads 361
Breadth-first structures 10–12, 20
Brock, Douglas 595–605
Brown, D.J. 289–99
Brown, Peter 245–7
Brown, Sally (review) 379
Building a theoretical framework of web-based instruction in the context of

distance education 525–34
Burrell, Clare 389–401
Burt, Gordon (review) 113
Business Café 91–4
web site 94–100, 102–3
The Business Café project: viewing to browsing? 91–104

CAL *see* computer-assisted learning
CALM project 198
Cannon, Robert (review) 250–1
case study research 627–8
Case study research in educational settings (review) 627–8
Casey, Jean (review) 499
Chang, Chi-Cheng 435–58
The changing face of learning technology (review) 504–5
Changing university teaching (review) 251
Chen, Sherry 5–22
Chen, Yan-Jane 459–70
Children and the Internet: experiments with minimally invasive education in India 221–32
Christoph, Noor 69–70
classroom learning, resources for ICT 235–8
cognitive styles, matching with presentation 6–21
Cognitive Styles Analysis 7–8, 10, 13
Cohen, Maxine 495–7
collaborative learning 224, 290–1, 415–16, 532, 571–2
Colloquia
Collaboratively developing instructional activities of conceptual change through the Internet: science teachers' perspectives 619–22
Design of a networked portfolio system 492–4
Developing animation story for children 109–12
The development of interactive World Wide Web-based teaching material in forensic science 105–8
Integrating multimedia into a distance learning environment 495–7
Objective and subjective evaluation of computer-based tutorial teaching in veterinary pathology 245–7
Referees are not always right! The case of the 3D graph 623–6
Running the power station 487–91
TASC: a microcomputer support system for persons with cognitive disabilities 373–7
community-virtual communities 338–9
compact discs (CDs), assignments submitted on 162–9
Computer-aided assessment in higher education (review) 379
computer-aided learning materials, conceptual gains from using 587–92
computer-assisted learning (CAL) 185, 186–92, 200–4, 206
constructivist 186–92
Link 40–9
in special education 290–7
